

2025 RAM 1500

THE STRONGEST RAM 1500 EVER

THE NEW 2025 RAM 1500. It's both an evolution and a revolution of the truck that fans have depended on for decades. It starts with a redesigned exterior, an even more sophisticated interior and two new available 3.0L Hurricane I6 engines that help make this Ram 1500 the strongest yet. An all-new Tungsten trim level delivers unique styling cues, comfort and the kind of tech that truck buyers actually use. In fact, Tungsten Offers The Most Technologically Advanced Features In Its Class!*. Most importantly, from jobsites to highways to boat launches to driveways, the new 2025 Ram 1500 is still built to serve those behind the wheel.

Notes regarding the payload and towing charts above: numbers in **black boxes** reflect max ratings. 1. Payload and Max Trailer Weights are ESTIMATED values. 2. All weights are shown in lb unless otherwise stated. 3. Payload and Max Trailer Weight values are rounded to the nearest 10 lb. 4. Payload = GVWR - Base Weight. 5. Trailer Weight Rating (TWR) and Tow Vehicle Trailing Weight are calculated as specified in SAE J2807. Passenger Weight = 300 lb. Options Weight is option content above 33 percent of sales volume. Trailer Equipment Weight = Class IV Hitch Receiver is 11.1 lb (if not already included in Options Weight). Trailer Hitch is 10 lb if TWR is less than or equal to 5,000 lb, and 65 lb if TWR is greater than 5,000 lb. 6. Payload and Trailer Weight Rating are mutually exclusive. 7. GAWRs, GVWRs and GCWRs should never be exceeded. 8. The recommended tongue weight for a conventional hitch is 10 percent of the gross trailer weight. The maximum tongue weight for Class IV hitch receiver is limited to 1,100 lb. 9. Weight-Distributing Hitch is recommended for trailers over 5,000 lb.
